Pennine

BELIEVE YOU CAN ACHIEVE

PENNINE SCHOOL

ASSOCIATED WELLBEING

OUR WHY

BELIEVE YOU CAN ACHIEVE

It is our belief at Pennine that all children are born with the potential to make sense of their world, to interact with it, to experiment and play, to solve problems and to learn and achieve. Sadly, along the way, too many children become disillusioned with learning or with school, they switch off or disengage in part or completely for a variety of reasons.

WHY CHOOSE PENNINE?

Pennine provides a smaller, nurturing and more personable learning environment than larger schools. We have teaching groups with a maximum of six pupils and at least two adults. Groups are arranged by ability and learning style with an awareness of particular needs, supporting staff in moving pupils onto different educational stages when the individual is ready, supporting confidence and progress.

Our provision will include a formal curriculum of English, Maths, Science and Humanities as well as practical subjects such as PE, Arts, Food Technology and Forest School. We also believe that if a pupil has a special interest in a particular subject, it is important to give them the opportunity to access it. We have an outside garden space as well as access to a park across the road. We have excellent therapy spaces which includes a state of the art sensory room and a boxing room for the times when therapy needs to be more energetic! We have a Nurture room which is run by a specialist teacher and an intervention room for delivery of 1-1 sessions and programs such as accelerated reader. Our ultimate aim is to remove any barriers to learning that young people may encounter and provide opportunities for them to feel positive about learning, themselves and the world around them.

OUR MISSION AND VISION

BELIEVE YOU CAN ACHIEVE

Our mission at Pennine is to re-activate and to re-engage children and young people in learning so that they can experience success in small steps and develop the confidence to embrace more challenging tasks.
Pennine provides a safe platform for them to realise their unique talents and skills, as we as enabling them to learn and acquire new ones.
